## REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art of record teaches a transfective liquid crystal display (LCD) device with a single cell gap, comprising: a first substrate and a second substrate opposite thereto, wherein the transfective LCD device comprises a reflective region and a transmissive region; a plurality of first pixel electrodes and a plurality of second pixel electrodes on the first substrate, the first pixel electrodes in the reflective region and the second pixel electrodes in the transmissive region; a plurality of first common electrodes and a plurality of second common electrodes on an inner surface of the second substrate, the first common electrodes in the reflective region and the second common electrodes in the transmissive region; a vertically aligned liquid crystal layer interposed between the first substrate and the second substrate, wherein orientation of the vertically aligned liquid crystal layer is controlled by an electric field between the pixel and common electrodes; a first orientation control window having a slit width  $S_{rc}$  between the first common electrodes in an area corresponding to each first pixel electrode and dividing the liquid crystal layer into a plurality of orientation sections; and a second orientation control window having a slit width  $S_{tc}$  between the second common electrodes in an area corresponding to each second pixel electrode and dividing the liquid crystal layer into a plurality of orientation sections; the prior art of record does not teach nor suggest in combination with the above limitations  $S_{rc}$  is less than  $S_{tc}$ .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James A. Dudek whose telephone number is 571-272-2290. The examiner can normally be reached on 9:00-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert H. Kim can be reached on 571-272-2293. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
